PROFILE

Computer Science student at Bina Nusantara University who enjoys turning designs into working, user-friendly web interfaces. Experienced in HTML, CSS, and JavaScript, with a backend foundation in Node.js, Express, and NestJS from team projects of 3 to 6 people. Applies layered architecture and design patterns, and is the first author of an IEEE-format research paper. Seeking a Frontend Developer internship to contribute to real products and keep growing as an engineer.

EDUCATION

Bina Nusantara University (BINUS) **2024 – 2028 (expected)**
Bachelor of Computer Science

SMAS Diponegoro 1 Rawamangun
Natural Science

PROJECTS & RESEARCH

Frontend Developer – Tolongin Marketplace **2026**
Software Architecture course • team of 5

- Built the website's user interface with HTML, CSS, and JavaScript, following the visual theme and design direction agreed by the team.
- Collaborated with teammates on the overall architecture so the UI integrated cleanly with the application's structure.
- Used Git and GitHub for version control and team collaboration.

Backend Developer – RuangPulih **2026**
Mobile Hybrid course • team of 6

- Developed the Habit Tracker feature (Jakpulse) for tracking users' daily habits.
- Implemented the gamification system, including streaks and rewards, to encourage consistent user engagement.
- Integrated notification functionality to remind users about their habits.
- Tested API endpoints using Postman.

First Author – Algorithm-Based Task Reminder System **2026**
IEEE-format paper • Research Methodology in Computer Science • team of 3

- Led a team of 3 in reviewing academic journals and literature to support the research.
- Wrote a paper on an algorithm-based task reminder system that helps students avoid missing assignment deadlines.
- Followed IEEE formatting and academic writing standards.

TECHNICAL SKILLS

Languages	JavaScript, Dart, Python, C, SQL
Frontend	HTML, CSS, JavaScript
Backend & API	Node.js, Express, NestJS, REST API design
Database	MySQL
Tools & Design	Git, GitHub, Postman, Figma, Canva
Practices	Layered architecture, design patterns

LANGUAGES

Indonesian – Native

English – Professional working proficiency
